PRINCIPAL'S MESSAGE

I feel privileged in presenting the new edition of the newsletter 'Reflet' and I would like to place on record my gratitude and heartfelt thanks to all those who have contributed to make this effort a success. Fortunately we managed to conduct many co-curricular and extracurricular activities and residential programmes after the release of the previous issue of the handout. There is scope for us to feel proud of carrying them out with all blends of organizational efficacy and academic purpose. Events of this kind have the huge potential of bringing staff and students under one umbrella of team work. The outside world will come to know about the calibre and consistency of the students and faculty of a college only through such efforts. Highly flexible academic environment of today guarantee every freedom of organizing extra-academic events in educational institutions and we need to tap this opportunity to widen our perspectives of education.

Dr. A. Biju

SECRETARY'S MESSAGE

I have great pleasure to recollect my memories about the last academic year of our college. A college is complete only when it is filled with co-curricular and extracurricular activities along with the curricular activities. I am happy that the last year was completely filled with a variety of activities that had provided greater learning experiences and fun to our students and teachers. I hope this newsletter is going to be a creative reflection of such activities and experiences. I believe it will communicate to the outside world about our talents and strengths positively. I wish all success to this endeavour.

Dr. Zakkariya K A
